

# Miniature Size 7mm Aluminum Electrolytic Capacitor

## SPKE08(105°C) Series

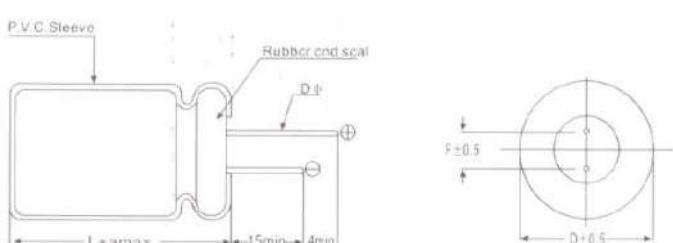

- Design for space-saving and high density insertion.
- Application: VTR, car radio, car stereos, charger, etc.
- For the special designing requirement, please contact us.

## ■ Specifications

Item	Performance Characteristics																																																																							
Operating Temperature Range	-40 to +105°C																																																																							
Rated Voltage Range	4 to 63VDC																																																																							
Capacitance Range	0.1 to 470uF																																																																							
Capacitance Tolerance	±20%(120Hz,+20°C)																																																																							
Leakage Current (+20°C,max)	I≤0.01CV or 3(uA) After 2 minutes, whichever is greater measured with rated working voltage applied.																																																																							
Dissipation Factor(tan δ )	(+20°C,at 120Hz)	<table border="1"> <thead> <tr> <th>Working Voltage(VDC)</th> <th>4</th> <th>6.3</th> <th>10</th> <th>16</th> <th>25</th> <th>35</th> <th>50</th> <th>63</th> </tr> </thead> <tbody> <tr> <td>D.F.(%)max</td> <td>25</td> <td>22</td> <td>20</td> <td>16</td> <td>14</td> <td>12</td> <td>10</td> <td>9</td> </tr> </tbody> </table>								Working Voltage(VDC)	4	6.3	10	16	25	35	50	63	D.F.(%)max	25	22	20	16	14	12	10	9
